Your details

What is your name?

Forename:

Nigel

Surname:

Wright

Are you making an individual response or on behalf of an organisation?

Individual

If individual, please tell us what type:

Resident of Somerset West and Taunton

Name of organisation:

Please choose one from the drop-down list:

What is your (personal/organisational) address?

██████████
██████████
██████████████████
██████████

██████████
██████████

What is your email address?

██████████

1. Overview and objectives

Do you agree that these are the right Objectives for the Local Plan?

Agree

Please provide reasons for your answers (200 words max):

2. Carbon neutrality

Question 1a: Should we aim to require that all newdevelopment is 'zero carbon' by as soon as possible (e.g. by 2025) or give slightly more time (e.g. by 2030) for developers to adapt their design approaches, materials and suppliers?

As soon as possible (e.g. by 2025)

Question 1b: Should we allocate sites for specific renewable energy development or identify broad areas which we consider suitable?

A combination of both of the above

Question 1c: Do you have any comments on these policy approaches?

Please provide comments (250 words max):

3. Sustainable locations

Question 2a: Do you agree with the tiers that identifies Taunton followed by 6 tiers covering the other settlements?

Yes

If not, what changes would you make and why? (200 words max):

Question 2b: Do you think Watchet and Williton should be seen as associated settlements for the purposes of the Local Plan due to their close proximity and in complementing the services of each other (and therefore be in a higher tier to Bishops Lydeard and Wiveliscombe)?

Yes - Watchet and Williton should be seen as associated settlements

Please provide reasons for your answers (200 words max):

Assuming the residents find this acceptable

Question 2c: Do you think we should carry on with the way housing is currently distributed across our area (see pie chart) or should we be doing something different, such as one of the three options suggested below?

Leave housing distribution the same

Please provide reasons for your answers (200 words max):

This assumes that public transport supports travel to Taunton from outlying areas, particularly on the North Coast

What else do you think about housing distribution in our area?

Please provide comments (250 words max):

Question 2d: Do you have any comments on these policy approaches?

Please provide comments (250 words max):

4. New and affordable homes

Question 3a: Should our housing requirement figure match the Government's minimum figure of 702 dwellings per year or should we have a higher figure?

The housing requirement should be higher than 702 dwellings per year and determined by economic growth strategies, infrastructure improvements and unmet need from neighbouring planning authorities

Please provide reasons for your answers (200 words max):

If, as implied, 702 is a number developed from a "magic formula", then this should be challenged. Any figure must be consistent with (achievable) growth strategies - this could be more, or less, than 702

Question 3b: How should we proactively plan for Gypsy, Traveller and Travelling Showpeople pitches?

Allocate sites specifically for pitches.

Please provide reasons for your answers (200 words max):

Allocation must be based on need and not on opportunistic basis

Question 3c: Should we require that all new housing developments include a percentage of new homes that are designed to be accessible, adaptable and wheelchair accessible?

Require a proportion of dwellings to meet the category standard as set out in Building Regulations Part M.

Please provide reasons for your answers (200 words max):

The proportion should be based on need. In rural areas, the practicality of accessibility requirements must be considered

Question 3d: How should we provide for custom self-build plots? Should we:

Identify and allocate specific sites for self-build plots in locations related to where people want to live according to our self-build register; and/or

Please provide reasons for your answers (200 words max):

Question 3e: Do you have any comments on these policy approaches?

Please provide comments (250 words max):

5. A prosperous economy

Question 4a: Should we ensure the growth of our local economy through an increase in the proportion of higher value jobs (with limited increase of jobs overall) or through a significant increase in the number of jobs?

Align with the Heart of the South West growth ambitions (deliver a shift towards a significant increase in overall job numbers including higher value jobs)

Please provide reasons for your answers (200 words max):

What is the council's current policy? In my view, we need better jobs, not more low value jobs.

What are the growth ambitions? Are they realistic? More than 1.5-2% growth per year is unrealistic.

Question 4b: Should we keep all of our existing employment sites and allocations in employment use or should we allow the loss of some to other uses? How should we decide which ones to lose?

Develop flexible policy allowing for the loss of any existing/ proposed employment site subject to specific criteria

Please provide reasons for your answers (200 words max):

A coherent and achievable strategy, that includes Nexus 25, is required first, before deciding on specific sites.

Question 4c: Do you have any comments on these policy approaches?

Please provide comments (250 words max):

6. Infrastructure

Question 5a: On what infrastructure should we prioritise developer contributions? (Please rank in order of priority)

IO - 5a - ranking - Affordable housing:

3

IO - 5a - ranking - Designing for the Climate Change Emergency:

2

IO - 5a - ranking - Accessible, Adaptable and Wheelchair Accessible homes:

4

IO - 5a - ranking - Strategic Infrastructure (schools, transport, community facilities):

1

Question 5b: Do you have any comments on these policy approaches?

Please provide comments (250 words max):

7. Connecting people

Question 6a: How can we encourage people not to use their car when travelling into our towns for shopping and work? How can we provide more opportunities for using public transport in rural areas?

Please provide comments (200 words max):

For many villages, including my own, Stoke St Mary, have no alternative means of travelling to town for shopping or work, other than by car., as there is no public transport.

Question 6b: Do you have any comments on these policy approaches?

Please provide comments (250 words max):

8. The natural and historic environment

Question 7a: Are there any specific measures that you would like to see new developments deliver to improve biodiversity locally?

Please provide comments (200 words max):

No new developments outside existing settlement boundaries is the only effective way to maintain and, possibly improve local biodiversity

Question 7b: Do you have any comments on these policy approaches?

Please provide comments (250 words max):

The Blackdown Vale must remain protected

9. Thriving coastal and rural communities

Question 8a: How should we manage development in rural areas? Should we:

Have settlement boundaries across the District; or

Question 8b: Do you have any comments on these policy approaches?

Please provide comments (250 words max):

Settlement boundaries must be maintained and development outside these settlement limits must not be allowed.

10. Wellbeing of our residents

Question 9a: Do you have any comments on these policy approaches?

Please provide comments (250 words max):
